THE MESA ADVANTAGE

Founded in 1989, Mesa is one of Southern California's largest home improvement companies for residential homes, new custom homes, apartment buildings and homeowner associations. Mesa takes great pride in providing high quality products and superior service for our valued customers throughout Southern California.

From entry level steel garage doors to our full custom wood garage doors and gates produced exclusively in our 35,000 sq.ft. Anaheim manufacturing facility, Mesa has everything you need to bring your home improvement vision to life. Explore Mesa's family of products and find the perfect complement to your home today.

America's Largest Garage Door Installation Company

Over 500,000 Satisfied Customers

The entire Mesa Garage Doors team has been rigorously trained in all aspects of sales, service and installation. Each individual must pass strict background tests before they become part of the dedicated Mesa family.

All Mesa Garage Doors are manufactured right here in the USA.

Raised Panel Steel

These steel garage doors combine the long-lasting performance of high quality steel with the elegance of clean lines and classic designs. Whether you want to create a subtle statement or a bold one, our wide assortment of neutral tones and designer windows will complement the architectural details of your home.

Traditional Designs

Improve your home's appearance with Mesa's Bronze Series garage door, available in nominal 24-gauge steel with a durable 2" steel frame construction. Choose from short or long panel designs available in white, almond, brown and sandstone colors.

- Heavy Gauge Steel: Nominal 24ga.
- Section Joint: Tongue and Groove joint between sections
- Thickness: 2", all sections have hemmed edges
- Finish: Baked on polyester enamel
- Bottom weather seal: U-shape loop type vinyl with aluminum retainer
- Available in long and short panel

Improve your home's appearance and energy efficiency with Mesa's Gold Series insulated garage door, available in nominal 24-gauge steel with full polystyrene insulation providing strength, interior beauty and great insulating value. Choose from short or long panel designs available in white, almond, brown and sandstone colors.

- 1 ¾" insulation with durable vinyl backing
- Heavy Gauge Steel: Nominal 24ga.
- Section Joint: Tongue and Groove joint between sections
- Thickness: 2", all sections have hemmed edges
- Finish: Baked on polyester enamel
- Bottom weather seal: U-shape loop type vinyl with aluminum retainer
- Available in long and short panel

Our Platinum Series three-layer construction provides exceptional strength, energy efficiency and dent resistance all packed into our sleek low profile design. All Platinum doors are available in short panel, long panel and flush exterior designs in white, almond, brown, sandstone, medium woodgrain and dark woodgrain colors.

- Steel front, Steel Back Sandwiched 1 ¾" insulation
- Heavy Gauge Steel Front and Back.
- Tongue and Groove joint between sections
- All sections have hemmed edges
- Baked on polyester enamel
- Bottom weather seal: U-shape loop type vinyl with aluminum retainer
- Available in flush, long and short panel configurations

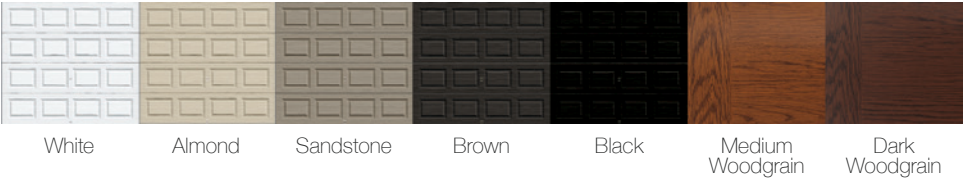

Carriage Stamp and Shaker Panel

Enduring Appeal of Carriage and Shaker panels

With Mesa's Carriage Stamp and Shaker Panel collection you will get the custom look with the low cost and low maintenance of a steel door. All Carriage Stamp and Shaker doors are available in Bronze, Gold and Platinum Series to fit nicely in any budget. With a wide range of colors, decorative hardware and designer window styles we can custom design your door to perfectly match your home.

Available Colors

The color samples are not exact reproductions, slight variations occur in printing. Please ask your representative for actual steel color swatches.

This Carriage House Style steel garage door simulates the look of old fashioned swing type doors. The Carriage Classic is available in a large selection of attractive designs to enhance the beauty of your home. The design patterns are a deeper "High Definition" pattern than most steel garage doors. This makes the door design more visible from a distance thus enhancing your home's curb appeal.

Overlay Doors

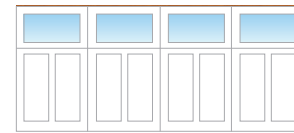

Unique High Definition Overlay Carriage House

Our High Definition Overlay garage doors offer a luxurious appearance and are a hybrid garage door. Using our insulated sandwich construction door as a base we apply the overlay design of your choice. These overlays are made with Extria which is a revolutionary product made specifically to be resistant to moisture, rot and termites. All Overlay doors are finished in white.

Our Full View Aluminum is constructed of commercial grade extruded aluminum alloy stiles and rails. Mechanical fasteners that connect the stiles and rails are extremely strong and visually undetectable. The Modern Classic comes standard with a clear anodized finish. Optional finishes include black anodized, dark bronze anodized, white Polycron® III polyester, Wood Grain and solid color powder coated finishes. The white polyester finished doors can also be easily field painted to your exact color requirement.

The Modern Look of Aluminum and Glass

Our Modern Tech steel garage door offers the Beauty of Aluminum with the Strength of Steel. A 24-gauge steel face and a 2 inch thick polystyrene insulation core makes the Modern Tech extremely strong and energy efficient. It is built using a time-proven sandwich-type construction method and comes in three simulated anodized finishes: Black Satin, Dark Bronze, Brushed Nickel and Bright White.

Custom Rail & Stile

Inspired Design - Handcrafted Quality

Mesa's Custom Rail and Stile garage doors are the answer to any homeowner's dream, a real wood carriage house style garage door at an affordable price. Every design is available in a Smooth Face or Faux Tongue & Groove Design

For over 25 years, Mesa has specialized in manufacturing the highest quality custom wood driveway gates exclusively in our Southern California wood shop. Our wooden driveway gates are custom designed to your exact specification, crafted from beautiful wood options such as Mahogany, Douglas Fir, and Cedar and include a full range of options for motorized opening and remote operation. Our double-sided driveway gates have steel frames hidden inside the wood to provide extra strength and durability, allowing for decades of service.

Remotes

This 1, 2 or 3 button remote is simple and easy-to-use. This garage door opener remote also features Auto-Seek Dual Frequency (315/390 MHz) leading to less operation interference. Compatible with all Intellicode® equipped openers. Sleek compact design is perfect to add to a keychain or clip to your visor (Visor clip is included)

Keyless Entry

Keyless Garage Access. Enter your garage without needing to carry a key with the wireless keyless entry pad. Keyless garage door opener keypad is safe and secure. Have personal pin access from one keypad that will control up to three separate garage doors that have Intellicode model garage door openers installed. Temporary Pin: Can be provided to repair persons, meter readers, house sitters, etc., while you're away, without compromising your family's private entry code

California SB 969 Battery Backup Law

SB-969 is a law passed in California that requires all garage door openers in residential applications sold or installed in California on or after July 1st, 2019 to be equipped with battery backup. SB-969 also prohibits a replacement residential garage door from being installed in a manner that connects the door to an existing garage door opener that does not meet the requirements of these provisions. All Mesa Garage Door openers meet or exceed current California requirements.
